Frolic Books

This delightful collection of books integrates with Frolic Online and extends your nursery’s ministry into homes. Frolic’s First Faith books follow the adventures of a charming group of baby animals that live in Palestine during the 1st century.

First Faith Board Books

Our durable board books were designed for busy hands and mouths. This colorful series aims to help active families fit moments of faith formation into everyday life! The board books are perfect for introducing basic faith concepts early, and even suggest activities for parents to try with their little ones.

First Faith Storybooks

The Frolic First Faith Storybooks introduce young children to common childhood challenges like dealing with anger and showing patience. Like the Board Books, this series focuses on getting children to connect with and trust God.
