### WHY CONNECT?

- **Relate to preteens with content they understand**  
Create relevance for teens with visual icons, vibrant maps, and instant activities. Each theme directs preteens to Scripture passages so they can get the big picture of the Bible and develop a strong faith foundation for youth ministry.
- **Combine humor with teachings from the Bible**  
Capture attention with witty, quirky humor-filled videos that apply biblical teachings from the lesson.
- **Build understanding around key Bible themes**  
Use a Bible-centered approach to explore themes found throughout the Bible's greatest stories and encourages preteens to see the narrative arc of the Bible.
- **Set your leaders and volunteers up for success**  
Give leaders resources so they don't need to be Bible experts. Resources are created so that volunteers and leaders can feel prepared without putting a large amount of time beforehand.

### HOW IT WORKS

Every Connect lesson follows a three-part sequence:

- **See:** Start lessons by watching an animated video that exposes a key biblical theme.
- **Explore:** Read, highlight, and sketch in Connect Bibles as they search for passages that relate to the theme.
- **Make:** Make associations between biblical themes and their own lives with lively activities and projects on the Learner Sheet that get them creating, collaborating, and connecting.
