LITTLE STEPS. BIG FAITH.

**"Let the little children  
come to me;  
do not stop them."  
—Mark 10:14**

**Dear God,  
sometimes I am the parent  
bringing my child to be  
blessed. Sometimes I'm the  
crabby disciple who shoos  
the child away. Help me  
invite instead of stop.  
Amen.**

**For many children, language explodes between 12 and 24 months of age! By singing, talking, and reading to your child, you help form pathways in their amazing brain. That means places like the changing table can be an early educational hotspot. You're not just changing a diaper—you're changing their brain!**

**Did someone else's toddler just solve a physics problem? Relax! Your child will develop at his or her own pace with unique gifts and abilities.**

**Don't waste emotional energy comparing yourself or your child to others. God created each of you good!**
